

Learn From These Industry Leaders How Oracle Business Intelligence Solutions Can Deliver Results

Uncle Jack's Steakhouse, New York, NY
Tuesday, May 19th 5:30pm - 7:45pm

When the technologies from these industry leaders are combined together they provide a powerful flexible solution that ensures your competitive edge in today's marketplace.

Learn from an existing customer how Oracle along with Zensar Technologies can make your implementation faster, your team more effective, your marketing more productive, and your return on investment higher.

The combined forces of Zensar Technologies has built enterprise systems that ensure that customers get strong implementations, faster rollouts, de-risked upgrades, dependable production support & best quality development.

IIS is an HP Oracle Elite Partner providing IT infrastructure solutions which optimize data center operations in order to deliver better services at the lowest cost.

In addition to HP's leading edge technology solutions, HP Financial Services offers solutions to assist with cash flow and improve ROA/ROI including repurchase of equipment, refinancing of existing leases, and capital to purchase additional equipment.

IIS will offer qualified attendees of this seminar a free Oracle Upgrade Assessment.
